REPORT OF THE PRESIDENT

1. Dr. Saunders reported that the enrollment is down slightly this fall from what we had forecasted in our budget. We will review and make the necessary adjustments to offset the budget.
2. The Farm Progress show just completed in Boone, IA and we are really looking forward to next year's show in Decatur. Greg, Beau, Clay and Lisa attended. They brought back a lot of take aways and are already discussing ways to make our show better than it's ever been. Thanks to those who attended and the work they do with our vendors that return every year.
3. The Department of Transportation is entering into an agreement with Richland Community College to establish training programs to develop outstanding construction workers. Highway Construction Careers Training Program will be under the direction of Darbe Brinkoetter. We anticipate the program to be up and running in January 2015.
4. A new initiative called Decatur Plugged-In between the City of Decatur and the Economic Development Corporation is being expanded. It started out as an idea to install cameras to monitor areas of higher crime rates and the expansion has turned into a plan for the development of a high speed, high capacity back bone of fiber optics through the core of the City of Decatur. This is all in part to the relationship Richland has with the Illinois Century Network. Joe Feinstein has a very interesting conversation on the history of the fiber optic placement at Richland Community College and the fiber capacity that Richland holds. We will feature this college activity as a spotlight in the near future.
5. Thank you and congratulations to Dr. Doug Brauer for the leadership in regards to the Genotyping Center project. We understand Fargo North Dakota was chosen after a workforce commitment was made by North Dakota University who provided to commit 20 PhD professors to assist with research development at the Genotyping Center.
6. Richland Community College held the Student Clubs and Services Fair on September 15. This allowed students to see what clubs are available to them to support their extra-curricular interests as well as the support services Richland Community College has to offer that will support their academic success.
7. Congratulations to Chef Brian Tucker. He competed in the American Culinary Federation cooking competition at Illinois Central College in Peoria on September 7, 2014. The competition included a mystery basket where he had to create a four course meal and four plates for each course. He finished second in the overall competition bringing home a bronze medal.
8. As Greg stated, Bistro Five Thirty Seven will be open to the public next week for lunch and dinner on Tuesdays and Thursdays. A soft opening is occurring this week for Richland employees only.

9. Richland Community College has started the United Way campaign with a goal of \$6500.00. Tracy Withrow and Laura Mondt are chairing the campaign. A big thank you to both of them for the work that they will be doing to make the campaign a success.
